Hi Aaron,

Our office wants to thank you and the Administrator for being so generous with your time last week. Congressman Schweikert thoroughly enjoyed the conversation, and was very encouraged by the excitement and support coming from the Administrator for these ideas.

Per the Administrator's instruction, our office would like to assist in the Phoenix pilot in any way we can. CC'd is our Chief of Staff, Oliver Schwab, and our Legislative Director, Katherina Dimenstein. Both have also been very active in rolling out this concept, and can provide support however you and the Administrator require.

Thanks Aaron – looking forward to working together on this.

Hey Tommy and Kat,

Good seeing you last week and thanks again for stopping by – I wanted to

follow-up with you both about proceeding on a meeting with the principle outside stakeholders as was discussed in our meeting.

Let me know who I should contact, or if you'd like to facilitate an introduction and arrange things moving forward. It would also be great if you all could come to the meeting as well when we get it arranged.

Thanks much, hope your August break is going well,

Richard

Richard,

I am looping in our scheduler, and we are working to get a conference call set up between the EPA folks, the Congressman, and ASU. ASU has had touched base with the Congressman, and so to our understanding they are very interested in pursuing this pilot program.

The conversation was at the member level, but we think a conference call among stakeholders would be the next step to see what we need to do to continue to move forward.

Ashley is cc'd.

Richard,

Thanks for reaching out. David just got back from overseas travel and I spoke with him today.

He is speaking with former Congressman Salmon and going to speak with the Arizona university systems to see if there is interest from the universities to take lead on the project. We certainly hope that there will be.

Apart from asking a university to take charge on this project, and subsequently getting us all looped in on one thread, is there anything that we should also simultaneously be doing to speed this process along that would be more helpful on your end?

Kindest regards,

Hi Aaron,

Our office wants to thank you and the Administrator for being so generous with your time last week. Congressman Schweikert thoroughly enjoyed the conversation, and was very encouraged by the excitement and support coming from the Administrator for these ideas.

Per the Administrator's instruction, our office would like to assist in the Phoenix pilot in any way we can. CC'd is our Chief of Staff, Oliver Schwab, and our Legislative Director, Katherina Dimenstein. Both have also been very active in rolling out this concept, and can provide support however you and the Administrator require.

Thanks Aaron – looking forward to working together on this.

Hi Tommy and Kat,

I wanted to circle back with you guys on this – let me know what you guys are thinking. We are looking forward to moving this along!

Thanks much,

Richard

Hey Tommy and Kat,

Good seeing you last week and thanks again for stopping by – I wanted to follow-up with you both about proceeding on a meeting with the principle outside stakeholders as was discussed in our meeting.

Let me know who I should contact, or if you'd like to facilitate an introduction and arrange things moving forward. It would also be great if you all could come to the meeting as well when we get it arranged.

Thanks much, hope your August break is going well,

Richard

Richard,

I am looping in our scheduler, and we are working to get a conference call set up between the EPA folks, the Congressman, and ASU. ASU has had touched base with the Congressman, and so to our understanding they are very interested in pursuing this pilot program.

The conversation was at the member level, but we think a conference call among stakeholders would be the next step to see what we need to do to continue to move forward.

Ashley is cc'd.
